KENTUCKY REPUBLICAN PLATFORM.

We are opposed to the free and unlimited
import of silver, believing that it would
injure the country in financial ruin. We believe in a sound
currency and in the use of gold and silver for
currency, provided always that the dollar in value
be made precisely equivalent to a dollar in fact.

We favor a tariff on imported goods, to protect
the interests of all classes of our citizens upon articles
that may be successfully manufactured or
produced in this country, thus favoring
the laborer and the home market to the
producer; and in connection with this we favor
the re-establishment of the duty on foreign goods,
to the extent of the duty on the same goods
imported from the United States.

We favor an American policy which will protect
American and American interests in all
parts of the world at all hazards and will sym-
pathize with struggling Republics rather than
ignorable monarchies.

Uncle Sam's Shortage.

The deficit in the National Treasury
for the first 41 days of the present fiscal
year is \$14,370,000.

Is Mr. BOWLER declines to pay the
sugar tariff, it is probable that when
Congress meets an investigation will be
had, Mr. BOWLER be called before it, and
instructed to bring papers and state,
after being put under oath, who told him
to question the constitutionality of an
act of Congress. It is also probable that
afterward legislation will be enacted
abridging the powers of the Controller,
and so plainly defining his duties that
in the future there will be no danger
that an executive officer will trench
upon the powers of the legislative
branch of the Government.

The Free-trade editors are not the
only people who want to look further
backward than 1894 to compare the
workings of the
Gorman and Mc-
Kinley Tariffs.
Farmers are
looking backward
and asking us to
investigate the Tariff question as affect-
ing their eggs and hay. We have done

CROP REPORTS.

Excellent Growing Weather and
and Showers in Kentucky.

Condition of Corn in Pennsylvania,
Ohio and West Virginia Improved.

Cotton Experiences Further Improvement
—Tobacco in Poor Condition in Ohio and
Portions of Kentucky and West Vir-
ginia—Fall Plowing Commenced.

CHICAGO, Aug. 14.—The reports as to
the condition of the crops throughout
the country and the reports received at
Chicago are as follows:

The condition of corn in Maryland,
Virginia, Indiana, Iowa, Oklahoma
and portions of Kansas, Nebraska and
Missouri, owing to drought, is not as
good as it was a week ago, but in Penn-
sylvania, West Virginia, Ohio and
Michigan it has improved.

The corn continues in excellent condi-
tion in Wisconsin and generally
throughout the southern states. At
portions of Tennessee and Kentuck-
y, however, late corn is being
favorably affected by drought. Cotton
has experienced further improvement
during the week, generally through-
out the central and eastern portions of
the cotton region. Tobacco is in poor
condition this year and is suffering from
drought in portions of Kentucky and
Virginia.

In Tennessee it is in good
condition. Drought has been relieved
in Michigan and Eastern Ohio, but
continues in Virginia, West Virginia,
Iowa, Nebraska and Kansas. Plowing
for fall seeding has commenced in
New Jersey, Pennsylvania, Indiana,
Illinois, Missouri, Michigan, Wiscon-
sin and Minnesota.

Kentucky—Excellent growing weather
and showers, but corn and tobacco
suffering in counties surrounding
Grant and Pendleton where
drought is becoming serious. Large
quantities of tobacco destroyed by pre-
vious rains in Hancock and Davies
counties. Elsewhere corn and tobacco
is exceedingly fine. All grain har-
vested.

Ohio—Abnormally warm with re-
lief, but unfavorably distributed. Crops
show general improvement except in
western central counties where drought
continues. Favorable outlook for low-
land corn. Tobacco is in poor condi-
tion. Cereals ripening. Some fall
plowing.

Indiana—Rains badly distributed.
Weather conditions hindered growth
of crops, especially corn, potatoes, to-
matoes and tobacco. Corn is in fair
condition. Pastures short in tobacco
medium. Clover cutting progressing.
Apples, peaches, pears and melons fair
yield.

THE BOND SYNDICATE.

Evidence That It Will Protect the Gold Re-
serve of the Treasury.

WASHINGTON, Aug. 14.—Evidence
that the Belmont-Morgan syndicate
intended to protect the gold reserve
of the treasury was shown by Acting
Secretary Carter Tuesday afternoon. A
telegram from Acting Treasurer
McNishman reached him, stating that
J. P. Morgan & Co. had deposited
\$1,344,000 in gold coin in exchange for
United States bonds.

A previous telegram to the depart-
ment contains the information that
\$900,000 gold coin had been withdrawn
from the sub-treasury for export Wed-
nesday. With the deposit of gold Tues-
day by the syndicate their total de-
posit since gold exports have been re-
sumed on a large scale, reached a total
of \$3,346,000.

It is estimated here that with ex-
change at the high figure quoted—
49 1/2 cents for a net profit of \$3,000,000
each \$1,000,000 gold exported is made
by the shippers. Treasury officials are
much gratified at the action of the syn-
dicate, and it is construed to mean
that they will not permit the gold re-
serve to fall below \$100,000,000. At
the close of business Tuesday the re-
serve stood at \$101,537,715.

TWO MEN KILLED.

Fatal Accident at the Mammoth Coliseum
Show Building, Chicago.

CHICAGO, Aug. 14.—The Mammoth
Coliseum show building, which is be-
ing erected opposite the World's fair
grounds on Sixty-third street, was the
scene of a fatal accident to two work-
men Tuesday afternoon. Samuel Mc-
Carney and E. McNeill were instantly
killed by the fall of a massive cross
beam of iron.

Five hundred men were at work in
the open space bounded by the four
walls, piling and bolting iron girders
which are to span the width of the
structure. McCarney and McNeill
were perched on one of the girders 28
feet in the air. The beam away for a
moment, then overbalanced and top-
pled to the ground, carrying the work-
men to death. The scores of work-
men barely had time to escape being
struck by the falling beam.

Severity of Water at Richmond.

Richmond, Ind., Aug. 14.—The long-
continued drought has cut down the
water supply of Richmond until it is
feared that river water will have to be
used. The mayor has issued a pro-
clamation urging the people to use no
more than necessary. The rainfall for
this section has been below the aver-
age for three years.

week? Besides, don't you think a year's sub-
